

Field	Details
Date	19 July 2026
Team ID	SB-AIML-2026-0042
Project Name	Emotion Detector - AI-Driven Emotion Detection & Personalized Learning Support P
Maximum Marks	1 Mark

Communication Plan

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Typ	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	GitHub Commit Log	Harsh (Solo Developer)	Track daily progress and blockers
2	Progress Update	Weekly	Self-review Checklist (Markdown task.md)	Developer + Mentor	Ensure milestone targets are on track
3	Issue / Bug Discussion	As Needed	GitHub Issues + VS Code Debugger	Developer	Identify and resolve technical bugs
4	Stakeholder Review	Bi-Weekly	WhatsApp / Email to Mentor	Developer + Course Mentor	Get feedback on design and direction

S.No	Communication Typ		Frequency	Channel / Tool		Participants	Purpose	
5	Final	Demo	Once	Streamlit Cloud App		Developer	End-to-end	demo
	Rehearsal			(Local Test)			walkthrough	before submission
6	Submission Check		Once	Course Portal +	Developer	+	Final	repository
				GitHub	Evaluator		submission	verification

Communication Challenges & Resolutions

S.No	Challenge Faced		Resolution Applied	
1	No real-time team feedback (solo project)		Used self-review checklists and AI pair programming (Antigravity) for feedback	
2	Gemini API error messages unclear		Added detailed logging and retry error reporting in `src/gemini/client.py`	
3	Streamlit Cloud deployment errors not visible in real-time		Used Streamlit's "Manage App" terminal for live log inspection	

S.No	Challenge Faced	Resolution Applied
4	Git push rejection due to diverged remote	Resolved via `git pull --rebase origin main` followed by force-safe push
5	Uncertainty about template requirements	Analyzed reference GitHub repo (Ravi-teja-777) and Drive folder to align

Communication Tools Used

Tool	Purpose
GitHub	Version control, commit history, issue tracking
VS Code	Primary development and debugging
Streamlit Cloud Dashboard	Deployment logs and app monitoring
Google AI Studio	Gemini API key management and testing
WhatsApp / Email	Mentor communication for milestone review
